

Agent

stimuli

actions

Environment

The diagram illustrates the interaction between an Agent and an Environment. The Agent is represented by a large black rectangle at the top. The Environment is represented by a white cloud shape at the bottom. A vertical line labeled 'stimuli' connects the Agent to the Environment, indicating the flow of information from the environment to the agent. A vertical line labeled 'actions' connects the Agent to the Environment, with a downward-pointing arrowhead indicating the flow of actions from the agent to the environment.
